

WILD HUT®

STEP INSIDE

Breathe deep. And unwind.

A Wildhut sauna is the ultimate wood-scented sanctuary – soothing away stress, boosting your health and helping you reconnect with nature in your own private garden or grounds.

With expert craftsmanship, high-end design and exquisite details and finishes, Wildhut is the last word in luxury sauna life.

Let us show you around...

LUXURY MADE SIMPLE

Wildhut blends traditional Nordic Baltic craftsmanship with classic British design – bringing you the authentic sauna experience, fine-tuned for today's world.

Every detail is best in class and built to last. Every element meets the highest standards of sustainability – and every sauna is customisable, from the exterior finish and windows, to the smallest interior touches.

With years of experience and specialist knowledge, we can help you choose your perfect sauna, organise its installation and take care of every step of the process – so you can simply sit back and relax.

The background of the entire page is a photograph of a Wildhut sauna. The sauna has dark vertical slats and a window on the left side that looks out onto a bright, sunlit garden with green foliage. On the right side, a dark rectangular panel with the 'WILDHUT' logo is visible. The text is overlaid on the dark slatted area.

ESCAPE WITHOUT LEAVING HOME

With a Wildhut sauna, you can be close to home and family, yet a world away from everyday life. Leave your worries at the door – inside, it's all about relaxing, restoring your health and soaking up your natural surroundings.

At the heart of this experience is the steamy warmth of heated stones. All our saunas feature traditional wood-fired or electric heaters – giving you maximum health benefits and a blissful hit of heat.

"It's probably the best investment we have ever made for, not only our garden, but our long-term health and wellbeing. Our sleep has instantly improved and we look forward to reaping the benefits of our very own source of heat therapy."

AFTER-WORK RETREAT

BORN IN THE SAUNA HEARTLANDS

Every Wildhut starts life in the vast forests of Estonia, where craftsmen have honed their skills for generations.

Built from slow-grown, cold-climate timber, there's care in every curve and joint. Our wood is thermo-treated inside and out, so it's tough enough to take years of heat – and withstand the very worst of the great British weather.

Available with an elegant alder or aromatic cedar interior.

BEAUTY THAT'S BUILT TO LAST

Behind the sleek lines of a Wildhut lie the latest in clever construction techniques.

At the heart of each one is an ultra-strong, sustainable core of cross-laminated timber, making it far sturdier than the usual frame saunas. At its base, is a set of four powder-coated, stainless-steel support beams that ensure perfect installation and that won't rot in our rainy climate.

So with Wildhut, you can be sure of the very best quality, durability and lifespan – and enjoy your sauna for many years to come...

THE FINER DETAILS

- Triple-glazed windows for thermal efficiency and a steam-free view
- Specialist lifting mechanism in case you need to relocate your sauna
- Protective mesh to prevent insect infestation around the base
- Heat-resistant sauna hinges for maximum safety and durability

WHERE FORM MEETS FUNCTION

Each Wildhut is a design classic – from its exterior curves and craftsmanship, to all the little luxuries inside.

Every aspect of sound, light and heat has been carefully considered, so there's high-spec LED lighting you can dim to a soft glow, and optional Bluetooth speakers to help you set the mood.

You can choose from a traditional wood-fired stove, or an elegant electric version. Our electric heater can be controlled remotely, making it the most convenient, energy-efficient way to warm up your sauna, so it's ready and waiting the moment you get home.

THE FINER DETAILS

- Elegant interior cladding in alder or aromatic cedar wood
- Wood-fired or electric heater topped with traditional sauna stones
- Integrated marine-grade fittings that won't rust or degrade
- Bespoke door handles and hardware in a finish of your choice

FOUR ELEMENTS OF BRILLIANT DESIGN

Cleverly compact in the city or luxuriously large in the wild, our saunas come in a range of sizes. Each is inspired by one of the four natural elements – so you can immerse yourself in heat and steam, invigorate yourself with fresh air and connect more deeply with the world around you.

Which Wildhut is for you?

OHK.

= Air

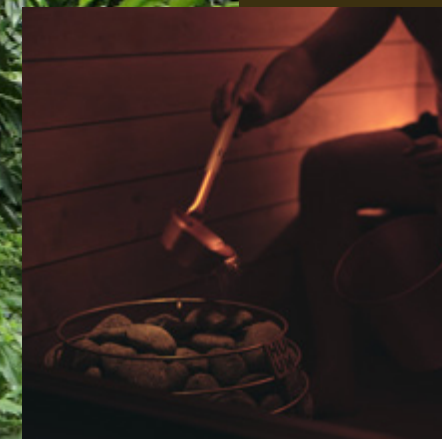

Enjoy the breathable warmth of our smallest sauna.

TULI.

= Fire

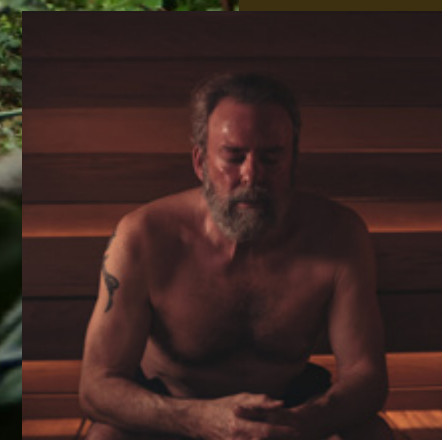

Feel the heat in our fiery four-person model.

VESI.

= Water

Soak up the steam in our sauna for six.

MAA.

= Earth

Relax and feel grounded in the most spacious of our saunas.

OHK®

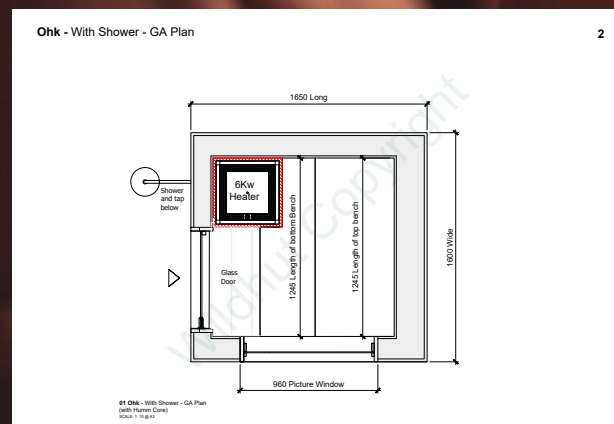

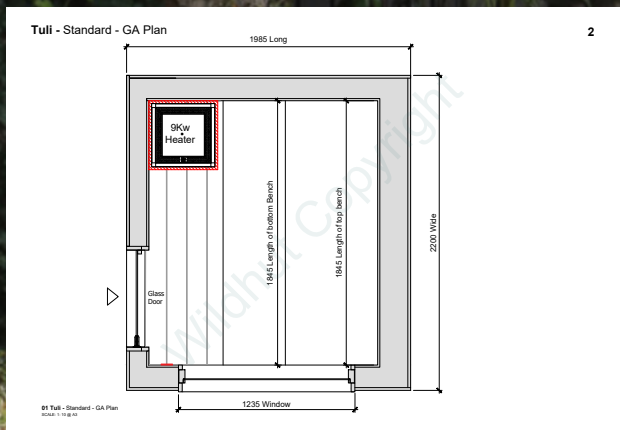

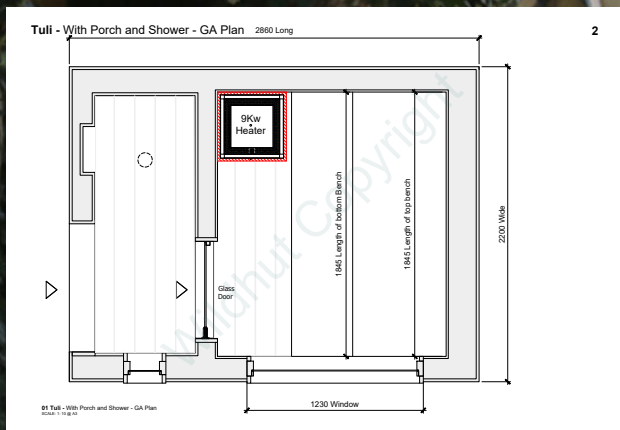

OHK® Seats 2

Small but perfectly formed to suit city gardens and tucked-away spaces, this snug hideaway invites you to enjoy time alone and deepen your connection with nature.

Dimensions:

L 1.65m x W 1.6m x H 2.5m (with or without optional shower)

"The quality and craftsmanship is fantastic, I love the beautiful picture window, being able to turn the sauna on from my phone to pre-heat while I am out and it is the ideal place to completely switch off from the world and unwind."

R Kilvington
Sussex

A photograph of two men sitting on a wooden bench in front of a black wooden wall. The man on the left has a grey beard and is wearing a dark robe. The man on the right is clean-shaven and also wearing a dark robe. They are both looking towards the right. In the foreground, there are green plants, some of which are out of focus. On the wall behind them, there are two small windows: one on the left with a potted plant inside, and one on the right with a wooden frame.
